

DATA SHEET

DATA SUBJECT ACCESS REQUEST (DSAR)

Managing requests in the right way, with the experts

A DSAR is a written request made by an employee to their employer for information, giving individuals the right to obtain a copy of their personal data, as well as other supplementary information. It helps individuals to understand how and why you are using their data, and check you are doing it lawfully. [Source: ICO] Since GDPR was introduced, there has been a significant increase in requests received by UK businesses. Complying with these

requests is a legal obligation, with maximum fines of up to 4 per cent of annual global turnover for organisations infringing the requirements.

Sounds scary, time-consuming, and costly, doesn't it? Where do you even begin to find where this information is stored? With sophisticated tools, Nasstar can provide your organisation with a cost-effective and efficient DSAR service, from receiving the request, all the way to delivering the data.

THE NASSTAR WAY

At Nasstar, we take pride in being able to help our customers when they need it most. Whether you're a current customer or new to us, our DSAR service is available to you as a standalone service, or as part of our Data Protection as a Service offering. Don't get caught out by not doing things the way they should be done – our expert team will take care of it all for you.

KEY FEATURES

Minimise effort and cost, whilst ensuring accurate and thorough results

\\ Thorough Data Sources checks

The service provides coverage of cloud-based and on-premise data sources, including but not limited to:

- Microsoft 365 Emails
- OneDrive
- SharePoint
- OneNote
- Microsoft Teams
- Windows Servers
- Laptops and Workstations

We will gather your requirements on where you want data to be found and all the requests that need to be fulfilled in the DSAR.

\\ Fast Reporting

Our advanced system generates a report of all findings, which is critically analysed by our in-house experts to remove any false positives. Once fully tuned to your estate, the exercise is repeated, and a final report presented.

REQUEST A FREE DATA PROTECTION CONSULTATION

Whatever your size and setup, our team can help. If you would like to book a complimentary consultation or find out more about our GDPR compliance products, please contact enquiries@nasstar.com or call 0844 443 433
