

The background features a vibrant, abstract pattern of vertical lines in various colors including yellow, blue, orange, red, and cyan. These lines vary in thickness and are set against a dark background, creating a dynamic, digital aesthetic. A solid black horizontal bar is positioned across the middle of the image, containing the company name and website address in white text.

NASSTAR

OUR EXPERTISE

**EMBRACE THE POWER OF CHANGE
TO CREATE 360° VALUE**

MANAGED NETWORK SERVICES

Connecting your users to the business-critical applications and services they require, securely, reliably, and from anywhere, is a 24/7 challenge that requires dedicated expertise.

What you need is a partner that you trust to get on with the job – no dramas, no surprises and, most importantly, no performance problems.

Managed Network Services takes the burden of network connectivity off your hands. Taking an internet-first approach, we use a combination of high-performance public and private services to deliver intelligent, 'application-aware.'

The result is a secure, flexible platform designed, delivered and managed to meet your evolving needs. Networks designed with the user experience front-of-mind. All optimised and available 24/7.

Secure

Flexible

Available 24/7

CLOUD SERVICES

The future of business is cloud-based. We work with you to tailor a cloud strategy that is unique to your business. We can help develop the business case and migrate the services and applications that offer the biggest benefits.

Cloud Strategy

We will help design your cloud strategy

Cloud Migration

Our team of specialists expertly manage your migration

Hybrid Cloud

Combining environments to create the perfect cloud for you

CONTACT CENTRE TRANSFORMATION

While moving to a dispersed model can make your business more cost-efficient, done badly it leads to connectivity, communication and compliance issues that harm your ability to serve customers properly.

We're here to help de-risk the remote worker environment and the contact centre at large. Working with Nasstar, agents can work from anywhere without customers experiencing any drop in service level, and crucially, without compromising customer's security or compliance.

**USERS GLOBALLY INCREASE PRODUCTIVITY USING
MICROSOFT TEAMS ALONE**

“ We’re impressed with Nasstar’s complete offering – the knowledge of the technical team, its solutions, and the comprehensive managed service wrap. The Proactive Monitoring ‘Watchpoints’ are unique in their ability to maintain our systems effectively in the background, 24/7, guaranteeing the resilience and highly-secure environment we need. ”

Justin Cole, Chief Operating Officer at SunLife

“ During times of disruption, it is comforting to know that we have a partner like Nasstar to turn to for help and guidance. The team was able to respond rapidly to our needs, ensuring operations could continue to run smoothly. As a result, we now have a solution that not only allows us to work remotely, but also delivers additional benefits in terms of efficiency and productivity. ”

Paul Spencer, Head of Customer Experience at Toolstation

OUR ACCREDITATIONS

OUR CLIENTS

We work with thousands of clients in every industry across the globe to deliver IT without drama. By hand-picking the technologies we know will make the biggest difference in how our customer's businesses perform, we provide tailored solutions designed to meet specific sector needs, 24 hours a day. 365 days a year.
