

DATA SHEET

DATA PROTECTION AS A SERVICE (DPaaS)

A lawyer-led service, ensuring GDPR compliance...always

Under the General Data Protection Regulation (GDPR), organisations must appoint a Data Protection Officer (DPO) in certain circumstances. Outsourcing this support is a practical and cost-effective solution for any organisation, no matter your requirements, so you can make sure all data you obtain is in accordance with the law.

Whether it's basic support or a bespoke service tailored to your needs, Nasstar's DPaaS packages have you covered – without the need for a separate legal team.

We know this stuff isn't fun, but it's a necessity, so we make it our business to ensure you are compliant via our independent DPO team.

THE NASSTAR WAY

At Nasstar our business is your security. Whether you're a current customer or new to us, our Data Protection as a Service is available to you as a standalone service, or as a continuous process to ensure your ongoing compliance.

Utilising access to our experts and latest tools, you can deal with requests and data quickly and effectively, all whilst meeting the standards required of GDPR.

KEY FEATURES

Stay on the right side of GDPR law with our independent DPO service

Easy Onboarding

We organise a remote 'familiarisation' meeting to understand your organisation and how it processes personal data.

Expert Support

You will gain access to our lawyer-led DPO team, who will provide support, information and guidance on data protection:

- **Basic** – 4 advice credits per month
- **Premium** – unlimited, as well as legal advice on the GDPR and data protection aspects of legal contracts, as well as a review of any existing key privacy, data protection and retention related policies. Interface with ICO for all data protection issues, as well as access to template policies and other GDPR documentation.

Next-level training and Resources

Our expert team provide 10 webinars each year to keep you up-to-date with the latest data protection news and developments. You will also gain access to template policies and other GDPR documentation.

- **Premium** - Up to 2 tailored training days onsite per year, alongside GDPR gap analysis.

Reviews and Reporting

Quarterly report of activities and use of service to help you better understand your strengths and weaknesses and measure value for money.

- **Premium** - Monthly report of activities and use of service and Cyber Security Threat assessment, as well as a quarterly External Vulnerability Management Scan.

REQUEST A FREE DATA PROTECTION CONSULTATION

Whatever your size and setup, our team can take care of it. Leave the management of your compliance in hands of a qualified solicitor with expertise in data protection law and practice, so you don't have to. If you would like to book a complimentary consultation or find out more about our GDPR compliance products, please contact enquiries@nasstar.com or call 0844 443 4433
