

HYBRID MEETINGS WORKSHOP

Come together to get work done

We're building experiences to help everyone thrive in this new world of hybrid work – accelerated by organisations' rapid move to the cloud. In the current environment, there is a greater need to deploy solutions and services that will bring people together in a virtual setting.

Flexible work is here to stay: over **80% of managers say they expect more flexible work from home policies**, and more than **70% of employees say they expect to take advantage of them**.*

With Microsoft Teams, you can help people stay connected, collaborate seamlessly, and simplify work, in a secure and compliant way – all in one place.

The Hybrid Meetings Workshop is a modular engagement to help define your business priorities and scenarios that drive hybrid work. This workshop engagement is designed to showcase hybrid meetings through 'art of the possible' immersive experiences, use case design, and deep dive planning resulting with actionable recommendations to deploy and adopt Microsoft Teams Meetings and Microsoft Teams Rooms.

Assess

Gather information on current environment and practices for calling

Art of the Possible

Showcase modern calling capabilities powered by Microsoft Teams Phone

Build the Plan

Build the plan for how to deploy and adopt Microsoft Teams Phone
