NASSTAR

THREAT PROTECTION WORKSHOP

Learn how next-generation Microsoft security tools can work for you

Workshop Highlights

Identify real threats to your cloud environment with Threat Check

Showcase security scenarios with product demos

Understand your security goals and objectives

Develop joint plans and next steps

Deliver the end-to-end Microsoft security story

"The Threat Protection Security Workshop helped us understand our maturity levels on different sectors of cybersecurity."

- Harri Kivimaa, Head of End User Services, VTT

Do you know how many phishing attacks your organisation has received? If employees are using the right password protocol? Or whether personal data is being exposed? Your organisation's cloud environment might not be as secure as you think it is.

Improve your security posture with a Microsoft Threat Protection Workshop

Businesses today are managing a growing volume of data and alerts while dealing with tight budgets and vulnerable legacy systems. Get help achieving your broader security objectives - and identify current and real threats - by scheduling a Microsoft Threat Protection Workshop.

Our Microsoft cybersecurity experts will recommend and help you develop a strategic plan customised for your organisation. You'll gain visibility into immediate threats across email, identity, and data. Plus, clarity and support on how to upgrade your security posture for the long term.

WHY YOU SHOULD ATTEND

Given the volume and complexity of identities, data, applications, devices, and infrastructure, it's essential to learn how secure your organisation is. And also how to mitigate and protect against threats moving forward. This workshop, will enable you to:

Identify current, ongoing risks to your cloud environment

Document your security strategy for the benefit of key stakeholders

Walk away with actionable next steps based on your specific needs and objectives

Better understand how to accelerate your security journey using the latest tools

WHAT TO EXPECT

During this workshop, we'll partner with you to strengthen your organisation's approach to cybersecurity. We'll help you better understand how to prioritise and mitigate potential attacks.

\\ Deep analysis from Threat Check of cyberattack threats found targeting your organisation

\\ Actionable recommendations to help immediately mitigate the identified threats

\\ A detailed assessment of your IT and security priorities and initiatives, direct from cybersecurity pros

\\ An inside look at Microsoft's holistic approach to security, and how it relates to your organization

\\ Demonstrations of integrated security, including the latest tools and methods

\\ Long-term recommendations from Microsoft experts about your security strategy, with key initiatives and tactical next steps

Pre-engagement Call	Kick-off Meeting	Cloud Discovery Log Collection	Threat Exploration	Threat Results Presentation	Engagement Decommissioning

WHO SHOULD ATTEND?

The workshop is intended for security decision-makers such as:

\\ Chief Information Security Officer (CISO)
\\ Chief Information Officer (CIO)
\\ Chief Security Officer (CSO)
\\ Data Protection Officer

\\ Data Governance Officer
\\ IT Security, IT Compliance, and/or IT Operations
\\ Data Governance
