NASSTAR

TRANSITION TO CLOUD WORKSHOP

Empower your people to be productive and secure from anywhere

Workshop Highlights

Evaluate your secure 'work from anywhere' options and business implications

The goal is to envision and enable the scenarios that are relevant to you

Leave with a concrete deployment plan, timelines, and next actions

Productivity and teamwork are fundamental to build resilience for your people, teams, and organisation.

Empower people to be more productive and secure as they adapt to new ways of working with Microsoft 365.

This workshop will show you how you can use Microsoft technologies to:

\\ Provide meeting and collaboration experiences to connect teams remotely and onsite

\\ Secure your business with technology you can trust

\\ Consolidate to one cost-effective solution to simplify IT management and reduce spending

WHY YOU SHOULD ATTEND

We'll discuss the scenarios available with Microsoft 365 to enable secure work from anywhere and evaluate your options to leave you with a concrete deployment plan and next steps.

This two-day workshop is focused on identifying secure work from anywhere scenarios that align to your business needs and address the following:

Envision secure work from anywhere
Understand the customer objectives and envision your priority scenarios

Implementation planning
Develop a plan to implement Microsoft Teams and foundational security for users, devices, apps, and data

Activation and adoption planning
Define a plan including risks and mitigations for a successful deployment and adoption

WHAT TO EXPECT

Teamwork and collaboration are fundamental to build resilience for your people, teams, and organisation. Our goal is to empower people to be productive and secure as they adapt to new ways of working with Microsoft 365.

✓ Understand your secure work from anywhere goals and objectives

✓ Envision priority scenarios with a customer immersion experience

✓ Define existing and desired work from anywhere scenarios

✓ Identify potential blockers and challenges

✓ Engage in an environmental and workload analysis

✓ Provide a list of actionable recommendations to implement hybrid identity, Microsoft Teams, and security

✓ Develop a joint action plan based on key results, recommendations, and next steps

✓ Provide a Microsoft Teams and Security Adoption kit, including end user training, workload introductions, and support resources

WE'LL CUSTOMISE THE WORKSHOP BASED ON YOUR ORGANISATION'S NEEDS

Engagement setup:

Objectives and scenarios

Customer immersion experience

Deployment and adoption planning

Key results, recommendations, and next steps

WHO SHOULD ATTEND?

The workshop is intended for security decision-makers such as:

\\ Chief Information Security Officer (CISO)
\\ Chief Information Officer (CIO)
\\ Chief Security Officer (CSO)
\\ Data Protection Officer

\\ Data Governance Officer
\\ IT Security, IT Compliance, and/or IT Operations
\\ Data Governance
